

Night Operations at the Otsego County Gaylord Regional Airport

**Leadership Otsego County:** This incredible program started by the Gaylord Chamber of Commerce more than a decade ago to introduce business owners, leaders, supervisors and others to our county and to teach and exchange ideas on leadership in the workplace. Each month the group spends a full day attending classes, touring and learning from other community leaders. The January installment was hosted by the OC Gaylord Regional Airport and the A list line-up of presenters was phenomenal. We also had the opportunity to highlight our airport and our general aviation mission that supports our community and beyond.

Speaking to the LOC Class, (L) Kevin Klein CEO Northwest Regional Airport Authority, TVC (R) Owners Big Buck Brewery, Alpine Chocolate Haus, GM Lowes, Key Realty

**Gaylord Patriotic Quilters at GLR:** Each month following the veteran's coffee at the airport, this local group presents handmade quilts to identified veterans. This month among others, we honored Joshua Churchill who was a U.S. Marine serving in Iraq during intense fighting. Although wounded Joshua stayed behind to help medivac his fellow Marines to safety first. Pictured here with his proud family on left and on right after receiving his Quilt of Honor.

**Our Working Classroom:** As part of Otsego County's, commitment to promoting Science, Technology, Engineering and Math (STEM) education to future generations our airport for its second year has welcomed a high school senior. This year from Gaylord High School joining our airport team is Jayden Hendrian who will be following a career in aerospace engineering.

**Luau In January:** We were excited to host the first Chamber of Commerce Business after Hours of 2022. Live music and great food welcomed business professionals throughout Otsego County. This after work meet and greet highlighted our airport. Sincere thanks to the Jim Akans band, Alpine Tavern, and all our prize sponsors!
